

AlphaZ® TTN Name Labels Starter Kit

ITEM NO: 67671

Organize drawers and reduce misfiling by adding color coding to your top tab folders. A large letter plus color bar identifies all subjects beginning with the same letter. When used on top tab folders with all tabs in the same position, a band of color is created that makes misfiled folders stand out. Thirteen colors code all 26 letters, with the color bar position distinguishing the second half of the alphabet from the first.

FEATURES:

- Colors match all Alpha-Z label systems
- Spaced for 1, 2 or 3 line headings
- Reusable pegboard display bag
- 8 labels per sheet, 71 sheets (568 labels) per pack
- Alphabetic character and color code bar are printed in the same color

Smead AlphaZ® TTN Name Label Starter Kit Assortment 67671, A-Z, Label Sheet, Assorted Colors
