

AlphaZ® NCC Color-Coded Name Labels - Sheets

ITEM NO: 67152

The standard for alphabetic color coding in both top tab and end tab filing systems, these wrap-around style labels can be read from both sides. Thirteen colors code all 26 letters; first half of alphabet has colored letter against white and second half has white letter against colored background. Two letters are assigned to each label to reduce inventory. Simply tear off the unused letter when removing from the backing sheet. Use alone for midsized alphabetic filing systems or with ACCS or ACC style labels in larger systems.

FEATURES:

- Illustrated instructions included
- Colors match all Alpha-Z label systems
- Reusable pegboard display bag
- 5 labels per sheet, 20 sheets (100 labels) per bag
- Alphabetic character and color code bar are printed in same color

Smead AlphaZ® NCC Color-Coded Name Label 67152, A & N, Label Sheet, Red
