KEEPING YOU ORGANIZED

Viewables® Color Labeling System

ITEM NO: 64920

No more typing or handwriting tiny inserts for your hanging folder tabs. Print color-coded labels that affix to our patented Viewables® tabs that are readable from the front, top and back, or print color-coded labels for standard top tab folders, classification folders, jackets or pockets.
Starter Kit contains the software you need to color code your files. Use your PC and printer to generate unique, wrap-around color-coded labels.
When used on folders with tabs in the same position, a continuous line of color is created for faster filing and retrieval. Color breaks your system into smaller sections and allows misfiled folders to stand out.
