Patent Pending

A super new folder to help you stay organized.

A super-sized tab lets you put more information on the file. Use the free Microsoft Word® label template to create color-coded SuperTab labels with large headings and extra lines for additional information.

Right away you can tell this is a better way to file. Smead SuperTab folders are the same size as standard file folders, but the extra large tab has 90% more label area. Write big. Write more. Find files fast. Get more done.

Use SuperTab folders in place of your regular 1/3-cut tab folders, and you'll see an improvement in office productivity. Available in recycled manila and a variety of colors. These folders won't take up any more room in the file drawer. And locating your files won't take up any more of your time.

Take advantage of SuperTab's extra large tab by using Smead oversized labels. 90% larger than standard labels, they have plenty of room for all of your file heading information.

Download the free Microsoft Word® label template at www.smead.com/SuperTab
